LEGAL NOTICES

AT A COURT OF PROBATE HELD at North Stonington, within and for the District of North Stonington, on the 10th day of April, A. D. 1920.
Present: CHARLES C. GRAY, Judge.
Estate of JERRY DUFF, late of North Stonington, in said District, deceased.
Edward Duff of North Stonington, Conn., appeared in Court and filed a petition praying for the reasons therein set forth, that administration be granted upon the estate of said deceased, represented to be intestate.
Whereupon, it is ordered, That said petition be heard and determined at 10 o'clock in the afternoon, and that notice of the pendency of said petition, and of said hearing thereon, be given by the publication of this order two times in The Norwich Bulletin, a newspaper having a circulation in said District, at least five days prior to the date of said hearing, and that return be made to this Court.
CHARLES C. GRAY, Judge.
The above and foregoing is a true copy of record.
EMMA R. GRAY, Clerk.
Attest: April 14, 1920

THINKS JOE BOHLING MAY MAKE COMEBACK

This speaker is generally being conceded the pennant in the American League this year by all experts who have viewed his club. Speaker, while admitting he has a good club, is not pleased with all the pennant predictions for his club, as he realizes that this feeling is liable to persuade his players and cause trouble. If he had a good left-hand pitcher, Speaker believes he would be all set for the season, and an old Worcester pitcher, Joe Bohling, looks as though he may stage a genuine comeback and furnish the club with the missing link. Bohling has revealed much of the form that made him such a star when with Washington five or six years ago.

Trapshooter Died.

Davenport, Iowa, April 13.—Fred Waffel, a trap shooter, of national reputation, died at his home at Nicholson, Iowa, today, following an operation.

A Permanent Income of \$88 Annually on an Investment of \$1,120.

Our Folder No. 350 describes the Preferred Stock of an old-line New England Company established in 1856, which has been doing a consistently profitable business for 64 years.

Let us show you how an investment of \$1,120 will return an annual income of \$88, or a yield of

7.86%

Major League Clubs Open Season Today

Major league baseball teams open the season in seven National and American circuit cities today, weather permitting. In the initial games of what is expected to be one of the best pennant contests in the history of the professional organization.

Forecasts indicate fair and colder weather with high winds for a majority of the baseball parks; but this will hardly check the enthusiasm of baseball fans, judging from reports of advance reservations sales at all the cities involved.

According to the schedules of the two leagues, there will be opening games in two eastern and two western cities of each circuit today and the visiting teams will, in turn, open the season at their own ball parks on April 22.

In the National League Pittsburgh will play at St. Louis; Chicago at Cincinnati; Philadelphia at Brooklyn and Boston at New York. The American League programme calls for New York at Philadelphia; Washington at Boston; St. Louis at Cleveland and Detroit at Chicago.

In every case special arrangements have been made to celebrate the beginning of another baseball season in which parades of the players, flag raising, band concerts and the throwing out of the first ball by prominent state or city officials will form a prominent part.

Analysis of the strength of the various teams on the eve of the pennant race appears to indicate that there will be several changes in the standing of the clubs at the close of the first month of the season as compared with a year ago. While it will be fully a month before any accurate line can be obtained upon the real strength of the teams, it would appear from the form displayed in the spring practice that they can be grouped generally at this time as follows:

National League — The Brooklyn,

Chicago and Philadelphia clubs appear to be stronger than last season while New York, Pittsburgh and St. Louis are about equal in playing strength to the form shown early in 1919. Boston and Cincinnati are not judged to be as strong as was the case last spring according to close followers of baseball.

American League — Philadelphia, Washington, New York and Cleveland are all expected to play a more impressive game this season than was shown respectively last year. St. Louis, Chicago and Detroit are classed as equal to their power of twelve months ago while Boston falls below the form of 1919.

ANNOUNCE NEW CHAIRMAN SOME TIME THIS WEEK

New York, April 13.—Appointment of a new chairman for the National Baseball Commission will be announced some time this week, Ban Johnson, president of the American League, declared here tonight. Mr. Johnson held a brief conference with John Heydler, president of the National League here today and said he would confer with him again within a day or two. Mr. Heydler will attend the opening game of the season in New York tomorrow and Mr. Johnson will attend the opening game in Philadelphia.

TOMMY SHEA'S BOXERS HAVE FULL SCHEDULE

Tommy Shea, of New Haven, manager of a large troupe of promising boxers, has been busy arranging a campaign for his men for the next few weeks. One of his charges, George Frolo, whom he is preparing for the state featherweight championship, is slated to box Tommy Shea of New York in Bridgeport, this Thursday night. Tracy Ferguson, another one of his charges has been booked to meet Salor Fritz in Meriden on April 22. On the 22nd Colie Pielmes, a member of Shea's troupe is matched with Mick-

ey Devine in Norwich. Pielmes has fought here before, under the name of Kid Sullivan, with Joe Corbett in the T. A. B. hall.

On the following night Shea has his man Mickey Travis oppose Young Eddy of Greenwich in Stamford. On the 23rd Ferguson will be sent against Freddy Sigle in New Haven, and Frolo will appear against Young Rocco of Hartford on the 24th, in New Haven.

GIANTS-YALE GAME CALLED OFF ACCOUNT OF WET GROUNDS

New York, April 13.—The baseball game scheduled for today at the Polo Grounds between the New York Giants and the New York Nationals was called off on account of wet grounds. For the same reason the contest between the Brooklyn team and the New York Aspies at Ebbets Field was declared off.

Owing to the difficulty of procuring transportation between this city and Boston because of the railroad strike, the Boston Braves remained here since last Sunday in order to be on hand for the opening game of the National League season at the Polo Grounds.

Arrangements were being completed here today by the New York American League club management to convey the New York players by automobiles for their opening at Philadelphia tomorrow in case they could not secure transportation by rail.

RENSSELAER BASKETBALL MANAGER ELECTED

Howard A. Young, a popular member of the class of 1921, has just been elected manager of the Rensselaer Polytechnic Institute basketball team for next season. Mr. Young hails from Rockville Center, L. I., and has been active in athletics since entering the institute. He was manager of his class track team, is a member of the varsity track and cross country teams and holds the Institute indoor half mile record of 2 minutes and 5 seconds. He was a member of this season's varsity swimming team, winning places in the 100 yard and 200 yard races, and was a member of the R. P. I. tank record at 28 1-5 seconds.

The assistant basketball managers are Joel Ager, Jr., of Lyonsdale, N. Y., and H. R. Tiffany of Rochester.

Harry J. Bartz of Erie, Pa., one of the greatest football players and weight throwers at the Troy Polytechnic has been elected manager of hockey for next season. W. E. Tierney of New Rochelle, stay player of the ice squad for two seasons, has been chosen captain of the varsity hockey team.

SHAMROCK III GIVEN A TRIAL SPIN

At Southampton the Shamrock III, Sir Thomas Lipton's "trial horse" for Shamrock IV, which is to sail against the American defender the coming summer for the America's cup, was given a trial spin last week preparatory to proceeding to New York. Sir Thomas was on board.

Sir Thomas said that in the event the Shamrock III should prove the speedier boat than Shamrock IV, he would ask the New York Yacht club to permit him to substitute the old boat for the new in the cup race.

Colonel O'Neill, who will represent Sir Thomas in the United States, is sail for New York today on the Adriatic, which will also carry Shamrock IV's racing spars.

NORWEGIAN OLYMPIC TEAM TO HAVE 250 MEN

Athletic enthusiasts on this side of the Atlantic who were inclined to be boastful about the size of our team to the Olympic games at Antwerp will no doubt be surprised to learn the size of the Norwegian team and that it will completely dwarf the American representation. Norway with the aid of its government, is preparing a force of 250 men, who will be distributed over every branch of sport on the programme. Nearly half the number will devote their efforts to the track and field events, in which the Norwegians expect to cut an imposing figure.

CARPENTER ARRANGING TOUR OF NEW ENGLAND

Carpenter is now arranging a tour that includes several cities in New England. Early in May, he will visit Boston, Mass., and it is understood that the Boston mayor is going to turn over the key of the city to the French aviator-boxer, something that never has been done before.

Two days after he becomes owner for a day of the city of Beirut, Carpenter invades Montreal and the welcome that he will receive in that city is forecasted by the fact that the war veterans of that city have made him an honorary member of their association for life.

BASEBALL LAMES TODAY

National League.

Boston at New York.
Philadelphia at Brooklyn.

Pittsburgh at St. Louis.
Chicago at Cincinnati.

American League.

New York at Philadelphia.

Washington at Boston.
Detroit at Chicago.

College Baseball.

At Cambridge: New Hampshire College-Harvard, postponed, wet grounds.

At Cambridge Brunswick, N. J.: Rutgers 4, Colgate 3.

FISHING TIPS.

By GEORGE E. CASE

The Rod.

When purchasing a rod make up your mind that the best are the cheapest. The rods range in length from eight to ten feet and are made of Greenheart, Bethabara, Dagama and split bamboo weighing from two and one-half ounces upwards, and of varied degree of pliability, according to the tastes of the angler. If you want

Blades that give a Real shave

Men form a life-long friendship for these oil-tempered, smooth-shaving, hollow-ground blades. They know they can always be depended upon for a cool, clean, comfortable shave without "pulling" or "heating" the skin. They know they mean the luxury of a fresh edge at a moment's notice because these blades are detachable; that they make for economy because they are double-edged; that they insure safety because they are guarded.

Try one of these wonderful blades today and learn the comfort that eight million men are enjoying in

DURHAM-DUPLEX A Real Razor—made Safe

The razor whose balance and old time shape make it seem part of your hand—the razor that lies on your cheek at the one-and-only right shaving angle—and that won't cut your face. The razor, furthermore, that has the longest, strongest, keenest, best-tempered blades on earth. The standard set consisting of the razor, safety guard, and 3 two-edged blades, is now packed in a trim, durable case of American ivory. Just the thing for traveling bag or kit. One Dollar Complete.

Additional blades 50 cents for a package of 5

Wants Games.

The newly organized Jewett City All Star baseball team would like to challenge any team averaging about 14 years of age, in Eastern Connecticut. Any team wishing games, please write between Wednesday and Saturday to Manager Nickolas Aramony, Box 130, Jewett City, Conn.

New and Unique Music.

Sam Moore of Monticello, Fla., is reported as bewitching his countrymen with music which he draws from a No. 12 saw. He is able to play "The Remy," "Dear Old Pal," "I Love You Truly," and many other tunes, using only the saw and a violin bow. Mr. Moore, who is an expert musician, is an architect by profession and on one of his jobs saw an old negro carpenter tapping a sort of melody out of an ordinary saw. He became interested, and taking a lead pencil started to play on the saw himself. Some of the notes did not ring true and the tone was "sort of harsh." A new saw and pencil with an eraser were the next steps taken in perfecting the idea. Later Mr. Moore tried the violin bow and found that if the bow strings were tight, excellent tones could be obtained. After much practice he finally perfected his art and now his saw music is said to rival any flute, for clarinet and the violin for quality of tone.

A vain woman may accuse a man of being a flatterer, but never of being a liar.

a rod that will stand up under hard usage, and still be of light weight, and that possesses the qualities which go toward making a long cast when adverse winds are to be contended with, a good split bamboo is the only material that fills the bill. Wood rods do not have the uses you wish to put it, and to cast into the wind, unless built very heavy and then they will warp and become so crooked from exposure that they are out of balance. In selecting a fly rod one should have in mind the uses you wish to put it. If for light trout fishing exclusively, where the streams are small and long casts are not called for, eight and one-half or nine feet, not to exceed four and one-half ounces, makes a very pleasant rod to fish with. In heavier streams where fish run larger such as rainbow and brown trout, nine and one-half feet and five to five and three-quarter ounces, is best.

For all around trout and bass fishing the tournament type, this makes the most wonderful rod having great power and will stand all kind of hard usage, while it is not the most pleasing to use, or as easy to fish with, is a more pliable one.

For ordinary trout fishing the nine-foot four and three-quarter ounce rod with a good stiff middle joint, one will find it of sufficiently light weight to enable the angler to use the finest drawn gut leaders.

Extremely light rods require the greatest care in handling and are not a success in fishing.

The Reel.

In fishing with fly rod the reel is used chiefly in playing the fish and in shortening the line. In fly casting the line is controlled, pulled off, and stripped in by the left hand, assuming that the caster or angler is right handed. Having struck and hooked your fish the reel comes into use when shortening the line and playing the fish. There is not much to be considered in selecting a reel. Of course it should balance the rod and sufficiently large to hold the line. The angler himself must decide the weight. Some prefer a heavy reel as it tends to make the rod handle easier. A single action reel is most generally used and need not be expensive but well made with permanent or adjustable click, according to the taste of the angler.

The Line.

The line for fly fishing, the best, and

in fact the only line, is one of enamel-silk, its calibre corresponds with the weight of the rod. A double tapered one is the best, size H. E. H. for light weight, and H. C. H. for heavier or a stiff rod.

Leaders.

Leaders should be the best quality silk worm gut. A light tapered leader six or nine feet long with one or more extra dropper loops is greatly used and is generally considered the proper thing.

Dry Flies.

Flies for dry-fly fishing are tied to imitate winged insects and must be kept out of sight. Fish up stream prevent the line or leader from being in the water and don't overlook any. Fish the stream thoroughly covering every spot, but don't let your fly touch the water until your line is slightly above where you think the fish are lying. Using two or three false casts to dry your fly and to extend your line the correct length, then let your fly gently drop on the water, the fly should float. Retrieve the line just "fast enough" to prevent the line or leader from being in the water. Some of the flies favored by a great many anglers are Whirling Dunn, Beaverkill, Jenny Spinner, Wickham, Fancy, Coachman, White Miller, Black Gnat, Hares Ear, and Cow Dunn.

COMING OUT
